Dave Hallett

Dave Hallett has a love of people and their purpose in life. He is driven to deliver results and to help others achieve their full potential. He is a devoted husband to Alison and loving father to Jemma, Jack and Grace. He completed his BSc Eng. (Hon) degree at UND and joined Unilever under their management trainee program, growing his career in supply chain with them, nationally and internationally, over a period of almost 14 years. In this time, he worked in the Global Supply Chain function, based out of the UK and travelled extensively. He led a major SAP transformation project for the South African business and assumed executive engineering and operational roles. Highlights of his Unilever career included receiving the Chairman's Award and Global Award for Technology Development. Dave worked on a major restructuring project for the wider Mars South Africa business, leading the Supply Chain work stream. The supply chains merged to encompass all categories for Mars South Africa – including Pet, Chocolate, Food and Gum. Dave accepted a Cape Town based role with Freddy Hirsch as GM – Operations, opening opportunities to explore new territory of retail. In June 2020, he accepted a role with Pioneer Foods overseeing EBP (enterprise business planning) and Logistics. With the purchase of Pioneer by PepsiCo, David accepted a new role as head of manufacturing, overseeing 13 factories producing the groceries range. Most recently, David was asked to spearhead a new division as the Snr Supply Director for Customer Collaboration for PepsiCo South Africa

ContactsVia email: David.Hallett@pepsico.com | <http://linkedin.com/in/davehallett>**Fazlin Hoosain Temoor**

I am currently employed in the Freight Forwarding sector. I started my career at Morgan Cargo (PTY) Ltd in early 2014, dealing with various documentation processes, transporters, and shipping lines. I have gained invaluable experience and expertise during my time at Morgan Cargo (PTY) Ltd with my focus being on Internal Sales and Quotations. I was then offered a dual role within Morgan Cargo adding Invoicing to part of my job duties. In early 2020 I took up an opportunity with another employer "Cape Crops" where I had gained experience in dealing directly with the farmers, creating Purchasing orders and general office management. In early 2021, I was offered an opportunity to return to Morgan Cargo (PTY) Ltd as the Office Manager & Internal Sales and am currently still holding the position with Morgan Cargo. The Office Manager & Internal Sales role is a huge achievement for me and I find myself learning every day. www.linkedin.com/in/fazlin-temoor-386054149

**Lielzel Jacobs**

Lielzel Jacobs is an Administration Manager at Unitrans Supply Chain Solutions. She has 14 years' experience in the Supply Chain industry. She is a hands-on person who is passionate and dedicated. She enjoys a challenge and consider herself good in problem solving. Lielzel has received recognition for Outstanding Work. Lielzel is currently studying towards a Diploma in Logistics and Transport through CILT and Commerce Edge. Lielzel is actively pursuing her interest in expanding her knowledge in logistics and transport. She enjoys sharing her knowledge and she is also mentored by exceptional managers to expand her abilities. Areas where Lielzel believes she can add value include:
Change Management and Life Coaching | Interviews and Mock Interviews | Recruitment and Initiating Disciplinary Enquiries | CV Writing | Training and Development including Customer Relations | Management Styles | Empowerment | People Management | Motivation
linkedin.com/in/liezel-jacobs-313a66a7

**Jaycee Kent**

I am a supply chain professional with over 9 years' experience in a wide range of industries such as petroleum, tools and hardware, cosmetics, and presently hospitality. In each of these industries I had exposure to different business channels such as e-commerce, retail and wholesale. I have held positions where I have been responsible for warehousing, outbound & inbound logistics, procurement, demand & supply planning, inventory management, as well as marketing. It is this diverse experience combined with my education that has ultimately enabled me to be successful in achieving substantial results.

Areas I can assist in Change management, Life coaching, Supply Chain Management Best Practices, Business leadership skills

Elsie Madila

I am a dedicated individual having both experience in private and public sectors within the Transport industry. I am looking for an opportunity to demonstrate and utilize my abilities which I have acquired during my academic projects and work experiences. My future goal is become an expert in the field of Transport and Logistics and reach to a management level position where I will be able to make well informed and strategic decision for achieving the company's goals and objectives. I am currently working as a Fleet Controller.

Onicca Mailula

Onicca is a versatile Supply Chain Manager with extensive experience in optimising all warehouse functions and supply chain operations, including maximizing manufacturing efficiency, minimising costs and driving improved product quality. Highly proficient in training and developing high-performance teams to maximise productivity and operational efficiency, boosting the aptitude to construct favourable relations with key stakeholders that can greatly influence the organisation's profit margins. I regard myself as a transformational leader and exceptional communicator with the ability to analyse the organisation's operating environment to identify risks and implement risk mitigation plans to facilitate company survival and business growth.
Linkedin profile is: www.linkedin.com/in/oniccmailula

Dauda Majanbu

Dauda currently works as a Supply Chain Manager for VillageReach's Global Technical Team. In this role, he supports the design, implementation, evaluation and transitioning of Supply Chain interventions across VillageReach programs in Liberia, Democratic Republic of Congo, Malawi and Mozambique. Dauda has experience in system design, supply chain optimization, change management, supply chain integration, performance management, workforce development and immunization. In his previous role in VillageReach, he led the implementation of a system design project in Nigeria to improve consistent availability of Reproductive Maternal Newborn and Child Health commodities at the last mile. Before joining VillageReach, Dauda worked for Clinton Health Access Initiative on a variety of projects in Nigeria including: improving cold chain effectiveness and efficiency, improving coverage of and access to life saving medicines, system strengthening as well as private sector engagement. Dauda is a Pharmacist and has a Master's Degree in Public Health.

Praneeta Manilall

I am currently a mentor at SYSPRO for our internship program. Have been mentor/coach for the past 4 years within the internship program. I enjoy sharing knowledge, have passion to grow young individuals develop their career. I believe my success lie within the success of the team/mentee progress. I enjoy preparing authentic dishes. Also participate in food tasting challenge for major chain stores. Believe in live and let live philosophy. Accomplished many personal and career goals, have set further personal and career goals, both career goals and personal goals I want to accomplish in team (Team = Together everyone achieves more). My personal goal is to climb Mount Everest (Base camp) . Enjoy hiking and walking Enjoy travelling both local and international. On an international holiday I had the pleasure of meeting Richard Branson thought I was dreaming. Enjoy working with new applications and gadgets Read motivation and inspirational books. Always have smile on my face and I enjoy good laughter.

My goal is to deliver quality software to our customers I am serious when I am focused to meet my goals and deadlines. Have fine balance between life and work which enhances my productivity I enjoy meeting people of different cultures and try to learn new languages (did not perfect new language as yet). I am a self- motivated individual believe there's solution to every problem therefore we must live and love life to the fullest.

Nokukhanya Mthembu

Nokukhanya Mthembu

I was born and raised in the deep rural parts of Kwazulu Natal's northern coast. For additional education, I earned a B. Comm. Degree in Supply Chain Management and Business Management from the University of Kwazulu Natal, which I completed in 2009. In 2017, I completed my second qualification, a Post Graduate Diploma in Business Management, with Mancosa, and I am almost finished with a Post Graduate Diploma in Business Administration with Gordon Institute of Business Sciences. I'm excited to continue my education toward a Master of Business Administration degree in 2023. Toward the end of 2009, I began my career in supply chain management as an intern at the Department of Social Development. I began my career in the transportation industry with Crossroads in 2011 as a Management graduate trainee, and I have since held various positions within the firm. I started working for Crossroad as a Fleet Planner in 2012, was promoted to Fleet Supervisor in 2013, and left the company in 2014.

I began working for my present employer, Unitrans Supply Chain Solutions, in mid-2014 as a Contract Supervisor in the petroleum industry, and was promoted to Assistant Contract Manager in 2018. I'm interested in youth development because I have mentees that I'm mentoring in my neighbourhood; the program isn't formal; it's just the community I'm interested in seeing develop into better people. My ambition is to place these mentees in a professional mentoring program and to see how I can make a difference in the lives of many other young people around the world. The country's economy is suffering due to a number of causes, one of which is a lack of direction in picking career routes hence mismatched skills, which is where I believe my participation can have a beneficial impact on another people's life.

Dries Pretorius

Dries Pretorius is a great communicator and has the ability to connect with just about everyone, and can easily draw people from all walks of life into conversation. Dries has always had a passion for sharing knowledge and helping people through sharing his experiences. From an early career in sales and merchandising where he had to train field sales representatives on product knowledge to training merchandisers how to best pack shelves, to rolling out new products into the market and creating training packs for those programmes, he has always had a hand in training while his job title said "Sales". Later in his career he was invited as guest lecturer at WITS Business School and was also invited as guest lecturer at University of Pretoria to present on Retail Management. Dries knows Manhattan's SCALE and Open Systems (WMOS) very well, and how to work the various processes on both full screen and scanner, but enjoys being on the warehouse floor where the real action is and assisting the workers to get their job done without glitches. He is skilled at adapting training for the Deaf, and has a special interest in warehouse training for the Deaf. Dries facilitates the well-know supply chain simulation, "The Beer Game", and is responsible for facilitating team building requirements at clients. **Specific Areas of Interest:** Change management. Training, Interview skills and Mock interviews, Communication, Warehouse Flow

Karen Pretorius

Karen Pretorius, founder and owner, has 18 years' supply chain experience and more than 10 years' hands-on training experience. Her qualifications include MSc in International Business Management with a focus on Supply Chain, MBA with focus on Leadership in Supply Chain Management, a B Tech in Post School Education, Certified Supply Chain Professional (APICS' CSCP) and Certified in Logistics, Transport and Distribution (APICS' CLTD) to name a few. She is also a qualified instructional designer and content developer, assessor, and moderator. She offers objective facilitation for business strategy and process design and is an expert project manager. Karen's practical warehouse experience is solidly underpinned by her qualifications. She has spent much of her career focussing where business processes and IT systems interact, and understand business from the operational and IT sides, and can bring this together in systems and process audits and improvement projects. Karen has been involved in several WMS roll-outs as well as relocations and selection of warehouses where all processes had to be incorporated and trained. She also was the project lead on software implementation projects such as Business Intelligence, Data Warehousing, Activity Based Costing, and was the integration lead and analyst/tester on more than 10 integration projects. When the world changes quickly and unexpectedly, supply chains must be able to adapt while maintaining customer service.

**Eric Wakaria CSCP,
CPIM, SCOR-P**

I am a supply chain professional and laboratory specialist with over 14 years of experience working in the development sector and with international NGOs specializing in health-related programs. I have grown in my career to being a specialist as a public health supply chain expert. Key highlights of this experience has included providing capacity building to health teams including health coordinators, community health assistants, county and sub-county teams, among others on analyzing data to strengthen public health program supply chain, supporting the development of supply chain data visuals and analytics, developing training curriculum and trained staff on the quantification of health commodity needs and supported the active implementation of a maturity model platform that helped improve performance of the counties supply chains. Some of my key competencies lie in; end to end supply chain management, inventory planning and management, data analytics and visualization, and operations management.
