PEOPLE, PROCESS & TECHNOLOGY

THE TRANSFORMATION TRIAD

COMMON PITFALLS & LESSONS LEARNED

Excluding end-users from tech decisions.

Poor data quality undermining transformation.

Overemphasis on tools without aligning people and processes.

Inadequate investment in change management and training.

Success lies in cross-functional collaboration and continuous learning .

LOOKING AHEAD

THE FUTURE OF AFRICAN SUPPLY CHAINS

- Africa can leapfrog traditional models toward agile, tech-enabled operations.
- Enthusiasm for transformation is growing.
- Ecosystems and Supply Chain Communities are forming.
- Together, we're shaping a smarter, stronger supply chain future for the continent.
